SKILLS

- TypeScript
- C++
- MERN Stack
- Clerk
- TanStack Query
- Zustand
- Project Management Tools
- Strong Communication

EDUCATION

BACHELOR OF TECHNOLOGY

Thakur College of Engineering & Technology
Mumbai University
2024 - 2028

ACHIEVEMENTS

3RD PLACE - PROJECT OF THE MONTH

- Awarded by the GeeksforGeeks Student Chapter (TCET) during the "Code Flex" event for outstanding project development.

SMART INDIA HACKATHON 2025 PARTICIPANT

PROFILE

I'm a Full-Stack MERN Developer focused on creating clean, scalable, and user-friendly web applications. Proficient in TypeScript, React, Node.js, and MongoDB, I prioritize performance, maintainability, and usability, aiming to build fast, reliable, and easily scalable solutions.

FEATURED PROJECTS

PATHOS | FULL STACK LMS

- Architected a scalable full-stack application using the MERN Stack (MongoDB, Express, React, Node.js) and TypeScript, ensuring type safety and robust code maintainability.
- Integrated Clerk for secure authentication and PayPal for seamless course payments, ensuring a robust user experience.
- Optimized frontend performance and state management using Zustand and TanStack Query, significantly reducing load times and improving user experience.

BLOGGR | CONTENT MANAGEMENT SYSTEM

- Architected a dynamic blogging platform using React, enabling users to create, edit, and publish rich-text content seamlessly.
- Implemented a RESTful API backend to handle CRUD operations, ensuring efficient data retrieval and storage.
- Designed a fully responsive and accessible UI with Tailwind CSS, delivering a consistent reading experience across all devices.
